

Permanently Storing Q2, S1, and F1 (Block) Classes

It is recommended that you verify that all grades are correct before permanently storing grades. The Student Schedule Listing report, the Class Rosters (PDF) <https://sccharter-public.sharepoint.com/Documents/PowerSchool%20Documents/PS%20How%20to%20print%20Grade%20Verification%20Forms%20from%20PowerSchool.pdf> or Final Grade and Comment Verification (this is located under Reports in PowerTeacher) report can be used to verify that grades are correct.

Note: Do not use the same store code twice in one year, unless you wish the system to overwrite the grades you stored under the store code the first time with the grades you store the second time.

There are several different scenarios when you store grades and they all depend on the schools policy. Below I will demonstrate a couple of scenarios:

First Scenario: School A only needs to store Q2 or S1 grades. You would follow the same steps to permanently store Q1 grades, but you would replace Q1 with Q2 <https://sccharter-public.sharepoint.com/Documents/PowerSchool%20Documents/Permanently%20Store%20Q1%20Grades.pdf>

Second Scenario: School B wants to store Q2 and S1 grades. You would follow the same steps to permanently store Q1 grades, but when storing the Q2 grades you would replace the Q1 with Q2 (click link in the First Scenario). And after you successfully store the Q2 grades, you will have to repeat the same steps again to store S1 grades, but there is one other change. In the **Classes by term length** section you will enter the percentage as so:

- 2012-2013 = **Store with no credit** - 0%
- Semester 1 = **Store with no credit** - 0%
- Quarter 2 = **Do not store**

Third Scenario: School C needs to store a final grade (F1) for their semester 1 (S1) grade because the semester 1 class was a block class (4x4).

1. System
2. Permanently Store Grades
3. On the **Permanently Store Grades** page for “Use this Final Grade/Reporting Term” enter **S1**.
4. For “Save with this Historical Store Code” enter **F1**
5. **Check** “Include only enrollment records that are currently active and that were active on this date:” box and enter in a date 5 days before the end of quarter 1 (this is a recommended step by Pearson).

6. The district recommends that if the block courses are not the entire schedule for the entire student population and just a few courses are taught with in the school to use the filters under the **Additional Filter Options** (from the options below only choose one):
- Before going to the Permanently Store Grades page, select the students that are taking block courses then go to the Permanently Store Grades page. **Check** “Store grades for currently selected (#) students only”.
 - “Request that grades be stored only for a specific section” and enter the course and section number. For example, enter **113.04** for Course 113, Section 04.
 - If only certain grade levels teach block courses, **check** those grade levels.
