

SC05 Daily Activities Summary Log

The Daily Activities Summary Log shows the total number of students added and deleted from each EFA classification on a user-specified day due to school withdrawals and enrollments. This report also shows cumulative values from the start of school to the user-specified date. It is used by school and district administrators to review changes in the numbers of students within each EFA classification.

Student data for the school selected is included in the record selection process; every student who was enrolled in that school at any time during the report period is evaluated.

1. On the Start Page, click **System Reports**. The Reports page appears.
2. Click the **State** tab. The State Reports page appears.
3. Click **SC05 Daily Activities Summary Log**.

Selection Criteria

Student Selection

A student record is selected if it meets the following criteria:

- The student was enrolled at any time during the report period with any enrollment code and had a primary EFA classification in effect for the report period.
- The student was in a user-selected grade level during the report period.
- The student has the Include this student in State Reporting field set to Yes.

A student record is excluded if it meets the following criteria:

- The student has an enrollment record with the same enter date and exit date (no show) in the currently selected school year.
- The student has a grade level that is not equal to 99.
- The student has a school ID that is not the Graduated Students School.
