Selection Criteria

Selection criteria determine which database records are used in the report. For the SC27 Add On Weightings List, student records are selected. Refer to selection criteria for analysis when the report does not return the correct records.

Student Selection

A student record is selected if it meets the following criteria:

- Was enrolled with a funded enrollment code at any time from the beginning of the school year through the report date specified by the user.
- Has the Include in State Reporting flag set to Yes.

The report excludes students that:

- Were enrolled during the report period with an enter code of "xxi," where "xx" is any character and "i" is the letter "i" in lower or upper case.
- Were withdrawn during the report period with an exit code of W1* (in-district transfer), where asterisk (*) is any character.
- Have an enrollment record with the same enter date and exit date (no show) in the currently selected school year; a grade level is not equal to 99; and a school ID is not the Graduated Students School.

Report Output

Position	Field	Description
1	Date	The date the report was processed.
2	BEDS Code	This field is calculated by combining the district number and school code. The district number is extracted from the Edit District page, Start Page > District Setup > District Information. The school code is extracted from the Edit School page, Start Page > District Setup > Schools/School Info > Edit School.
3	Name	This field contains the name of your school. This value is extracted from the Edit School page, Start Page > District Setup > Schools/School Info > Edit School.
4	999 Day Data as of 99/99/9999	This field contains the end date or day number entered on the report interface page.
5	Page	This is the page number.
6	District Name	This field contains the name of your school district. This value is extracted from the Edit District page, Start Page > District Setup > District Information.
6	Line	This field contains the line number for each of the EIA codes and the total row.
7	Add On Weightings Classification	This field lists the Add On Weightings Classifications in which the student may be enrolled.
8	00 – 12	This field contains the total student enrollments in each Add On Weightings Classification, calculated by grade level.
9	Row Total	This calculated field is the total of all student enrollments in each Add On Weightings Classification.
10	Column Total	This calculated field is the total of all student enrollments in the Add On Weightings Classification for each grade level.
11	Principal	This field contains the name of the principal at the school selected for the report. This value is extracted from the Edit School page, Start Page > District Setup > Schools/School Info > Edit School.
12	Superintendent	This field contains the name of the superintendent of the school district. This value is extracted from the Edit District page, Start Page > District Setup > District Information.
