EFA/EIA Query	1.5	Query student data based on student EFA/EIA codes and other PowerSchool student data.

No EFA Record (recommened to run)

To just run a query for student with no EFA code.

1. Must check **No EFA Record**

EFA/EIA Search Criteria
Search for students with...   No EFA Records ☑

2. Click **Submit**
3. The next page will display a list of students without an EFA code selected. On this page you can make them either you current selection or Export Record.

Search Results

Important note: To export this selection of students, you must click on "Make these students the current selection" before clicking "Export Records".

[Make these students the current selection]

[Export Records]

Student Name	Student Number	Grade Level	Enroll Status	Gender
	701624	2	0	F
	701635	2	0	F
	701639	2	0	F
	701674	2	0	F
	701680	2	0	M
	701702	2	0	M
	701721	2	0	M
	701730	2	0	F
	701746	2	0	F
	701784	2	0	M
	701817	2	0	M

SC Public Charter School District

No EIA Records *(this is only for 3yr old or 4yr old programs)*

1. Must check **No EIA Record**

| EFA/EIA Search Criteria				
Search for students with...	No EFA Records ☐	AND ▾	No EIA Records ☑	

2. Click **Submit**
3. The next page will display a list of students without an EIA code selected. On this page you can make them either you current selection or Export Record. Keep in mind that all student without an EIA selected will display on this list, so it could end up being all active students.

Search EFA Criteria *(There is a limit to three (3) EFA codes that can be shown on one report at a time.)*

1. To display a report of all the students and their first three EFA Codes, set the report to show the same criteria below in the screenshot. This is basically saying show all students that have a Primary EFA Code that is not blank, or a secondary EFA Code that is not blank, and all tertiary EFA Codes. This will give any student that has 1, 2, or 3 EFA Codes if they are in those positions.

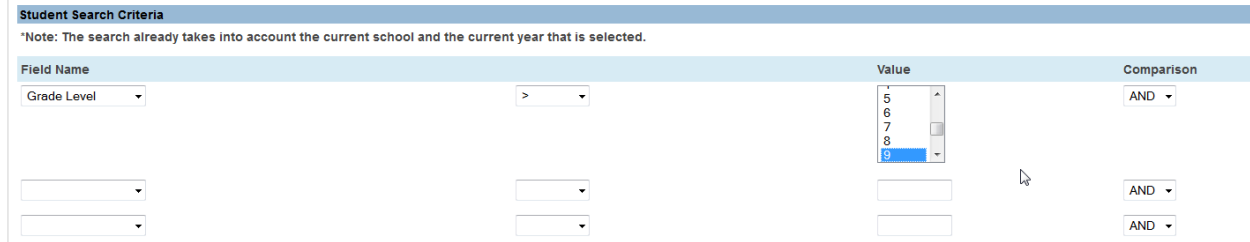

The next page will display a list of students without an EFA code selected. On this page you can make them either you current selection or Export Record.

Note: With the changes to the EIA code being only for 3yr & 4yr old programs until further notice from SCDE we would not use this query to verify GT, GTA, GTR, or AP students. Keep in mind this is subject to change.

SC Public Charter School District

Search for students with VOC code

The EFA Query still have the Voc 1 – Voc 3 codes so you have to manipulate the parameters to be able to use it if your school contains students who have been coded as VOC for EFA.

For Field Name select **Grade Level**; Value select **9**

For AND EFA Search Criteria

Field Name = EFA Primary # Value = High School

This is a known issue by Pearson and will be fixed in a future software update.
